

# DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

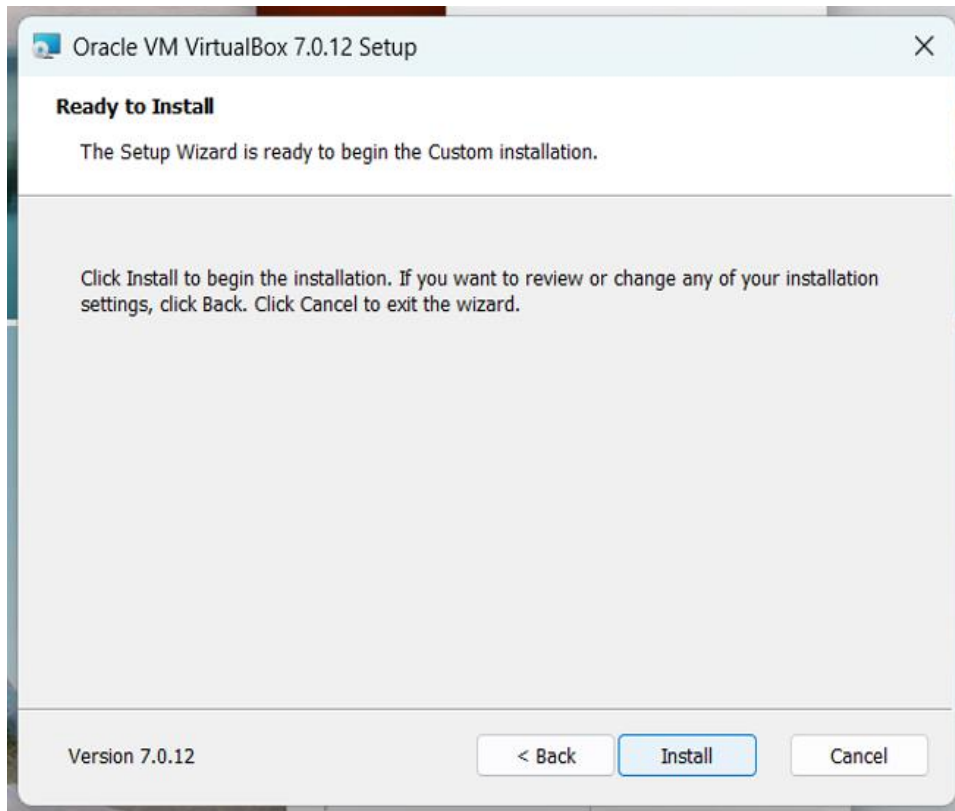

Discover. Learn. Empower.

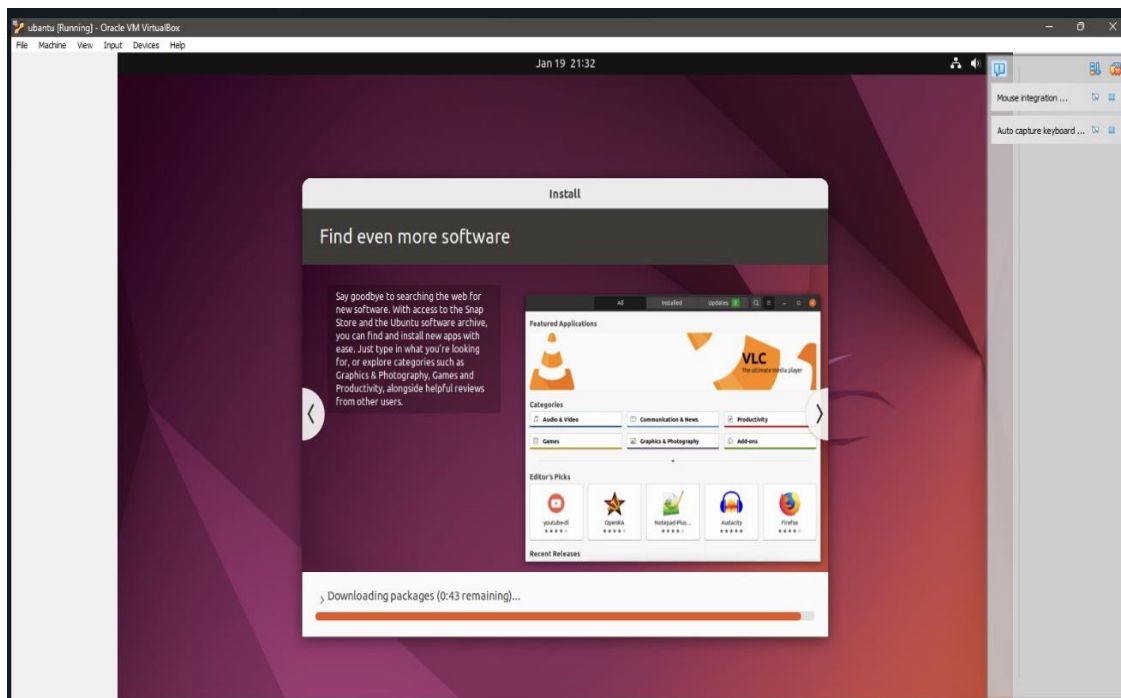

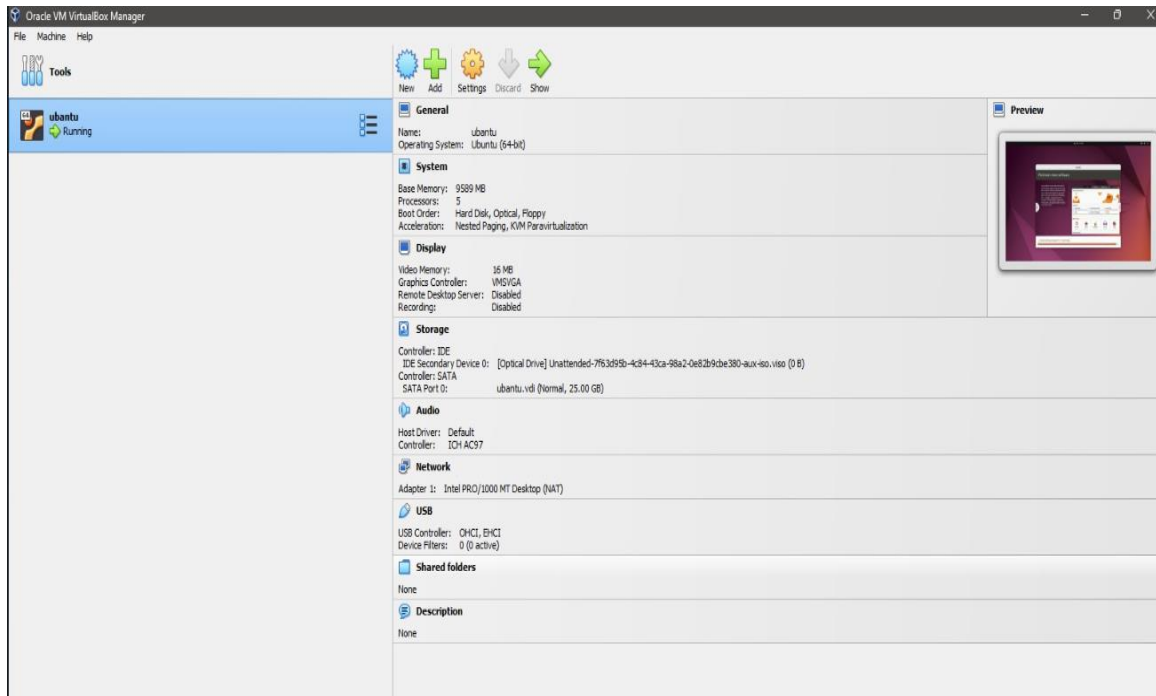

## Experiment1.1

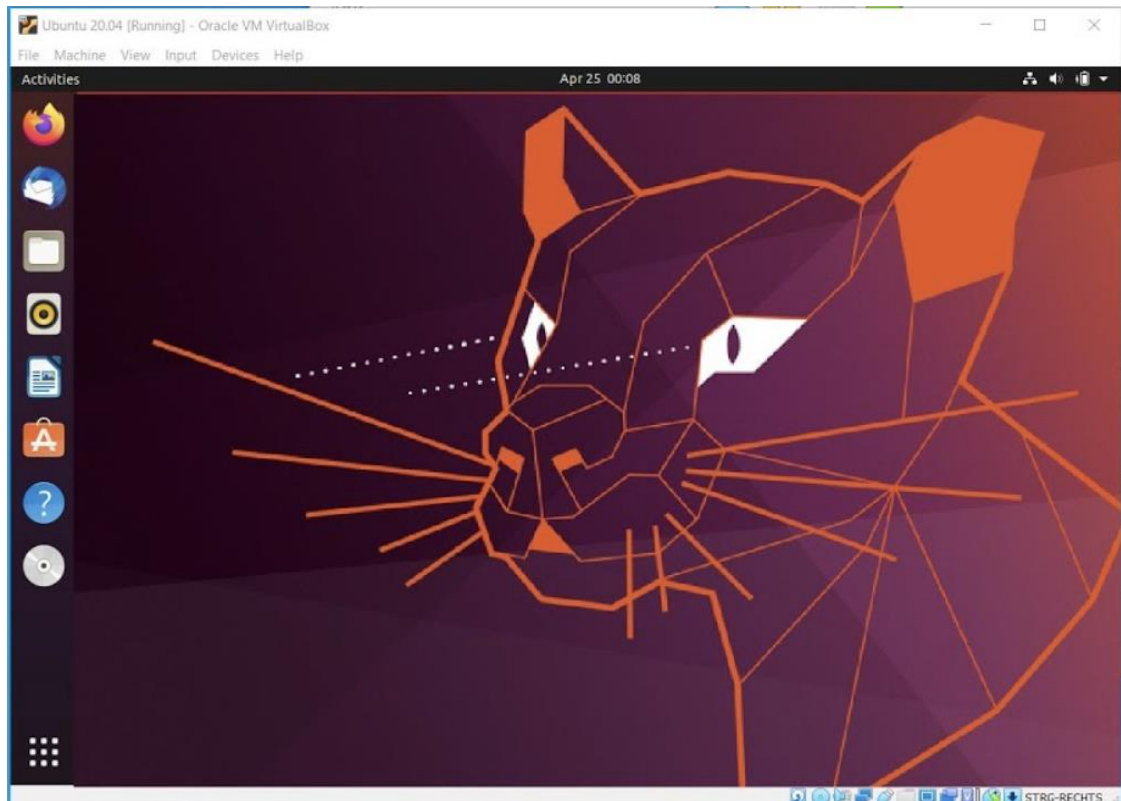

**Student Name:** Manish Singh Barolia    **UID:** 21BCS512  
**Branch:** CSE    **Section/Group:** 601-A  
**Semester:** 6<sup>th</sup>    **Date of Performance:** 20-01-24  
**Subject Name:** Cloud Computing    **Subject Code:** 21CSP-378

- 1. Aim:** Installation of VirtualBox or VMware workstation on a Windows 7 or 8 OS and set up various Flavors of Linux or Windows as virtual machines.
- 2. Objective:** The objective of this experiment is to install the VirtualBox on our OS for future experiment.
- 3. Software Requirements:** VMware workstation or VirtualBox  
Application software to create a virtual machine
- 4. Description:**

## Learning Outcome:

- Learn how to install VirtualBox
- Understand how to create Virtual Machines
- Learned to manage and allocate the system resources like RAM, CPU and Disk Space for Virtual Machines.
